Mr. Handyman New to Central Montgomery County

After spending 30 years in the insurance business selling and consulting to business clients regarding their employee benefit plans, Michael O'Donnell switched gears and opened a Mr. Handyman franchise in Central Montgomery County.

O'Donnell operates the residential and commercial repair company out of an office at 1289 Bridge Road in Skippack.

Mr. Handyman is based in Ann Arbor, Mich. There are more than 320 Mr. Handyman franchises in the U.S. O'Donnell said he chose to open the franchise because more people are fixing their homes rather than selling in the down economy, and he thinks there is a strong demand for such services in and around Central Montgomery County.

"Handyman work has always been enjoyable to me, and when the opportunity arose to own such a business, I reacted quickly," said O'Donnell.

O'Donnell's new endeavor is providing commercial and residential property maintenance and repair services. They focus on projects from light electrical and plumbing to drywall repair.

"We understand that not everyone has the time, tools, or experience to accomplish vital home repairs," said O'Donnell. "We want to help people in the area shrink those nagging To-Do lists hanging on their refrigerators."
